10 Temples on 2 Wheels: Exploring Kamakura by Bicycle or on Foot

By: **Vicki L. Beyer**

“10 Temples on Two Wheels” is a guidebook for the intrepid traveller who wants to have a bit of an adventure while seeing more of historical Kamakura than just the “main attraction” of the Great Buddha.

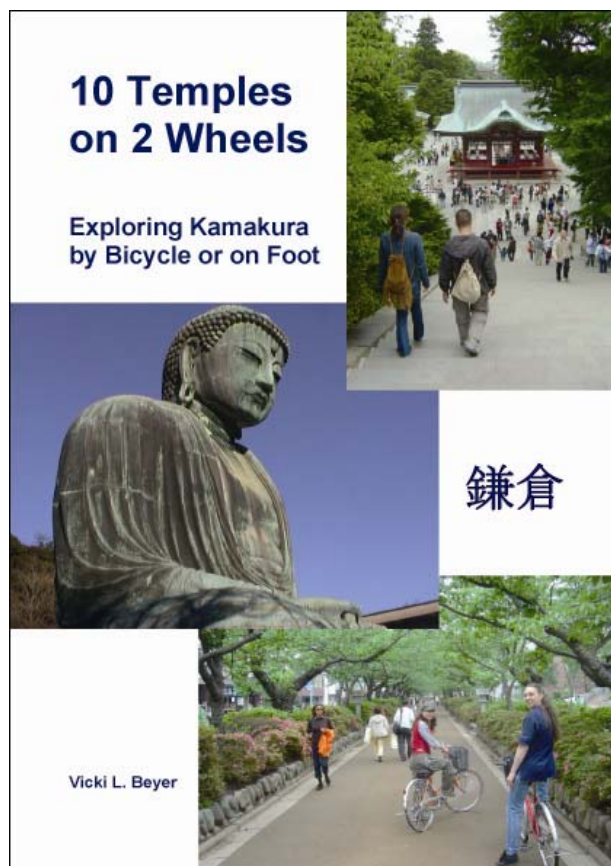

The guidebook contains a number of courses for day trips around Kamakura—by rented bicycle, on foot, or by rickshaw. Each course offers an introduction to some of the best of the city’s historical temples and shrines. It is also chock full of “tourist tips” about Japanese culture as well as information and stories about the temples, shrines and other sights on each course and the people who made them.

Paperback; 115 pages, including color photos, maps and index.
